### Objectives

I am looking to perform socially useful work in an environment in which I can utilize my current skills, develop new ones, and mentor others.

### Skills

- ▶ Excellent verbal skills
- ▶ Architectural skills: the ability to view the entire picture and deconstruct large processes into smaller, individual modules
- ▶ Programming skills: extensive experience with web-based technologies, object-oriented programming, and .NET programming, including Windows Mobile
- ▶ Mentoring and teaching within a project environment
- ▶ Project lifecycle from requirements-gathering to production

### Education

- ▶ Master of Library Science (MLS) (1984) University of Chicago Graduate Library School
- ▶ Bachelor of Arts (BA) (1976) Carleton College (biology)

### Experience

I have had experience in many industries, including warehousing, chemical manufacturing, steel, health-care delivery, and publishing. I have built many web sites for non-profits utilizing different application frameworks. Details available upon request.

### Languages, Frameworks, &c.

C#, PHP, HTML, DHTML, Javascript, jQuery, AJAX, CSS, XML, XSLT, .NET, Delphi, Moveable Type, Symphony, Story Server, Drupal, SQL Server, MySQL, Visual SourceSafe, Windows Mobile
